

- OLED Screen:
 - Must display song name, artist, album, maybe album cover?
 - Does not need to be touch screen
 - ST7735 seems like the best option for now
 - https://www.adafruit.com/product/358?srltid=AfmBOogjPTHmHRdBfUJm_xpqJTqboxr1ykEsHmYW699f27WPkxuy82E9
- Buttons
 - Must be three:
 - Back
 - Pause
 - Forward
 - Option 1: Keyboard switches
 - Gateron Baby Kangaroos V2 (currently have)
 - <https://www.gateron.com/products/gateron-baby-kangaroo-20-tactile-switch-set>
 - Standard CherryMX Browns.
 - <https://www.cherry.de/en-us/product/mx2a-brown>
 - Option 2: Tactile buttons
 - Have in stock:
 - <https://www.digikey.com/en/products/detail/adafruit-industries-llc/1119/7241449>
- Microcontrollers
 - ESP32
 - LOLIN C3 Mini
 - <https://www.aliexpress.us/item/3256804553736450.html>
 - ESP32-S3 Mini:
 - <https://www.amazon.com/Development-ESP32-S3FH4R2-Dual-Core-Processor-Multi-Function/dp/B0CJ85F5CG4>
- Electrical:
 - Two options:
 - Custom PCB
 - Soldering
 - Custom PCB:
 - More expensive
 - Takes longer
 - Compact
 - Allows for more flexibility in our design
 - Builds experience
 - Solder
 - Cheap
 - Quick
 - Easy
 - Not very compact
 - Sacrificing some design flexibility.
